

REFERENCE LETTER

Guotai-Huarong (Poland) sp. z o.o. confirms that **Gasso Polska Sp. z o.o. sp. k.** based in Bielsko-Biała completed a comprehensive delivery in 2022 of **23 pieces of equipment for reloading chemicals and electrolytes** in the new production plant in Prusice.

The order also included the preparation and development of TDT documentation and comprehensive service in the field of registration and acceptance of stands with the Transport Technical Supervision. The devices were made on the basis of the design documentation agreed in the Transport Technical Supervision.

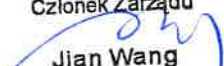

Together with Gasso Polska we realized a delivery of devices for collecting electrolytes to our unloading installations at the LG CHEM plant.

The devices used have contributed to improving the safety of reloading operations and have had a positive impact on increasing the level of environmental protection in our company.

All devices delivered and installed by Gasso Polska sp. z o.o. sp. k. had the necessary certificates, declarations and approvals, allowing for the registration of these devices in TDT.

Deliveries of equipment and assembly work were carried out with due diligence and within the agreed deadlines.

We recommend Gasso Polska sp. z o.o. sp. k. as a competent partner in the implementation of similar investments.

Guotai Huarong (Poland) Sp. z o.o.
